LIFEBIRD TOKEN

WHITEPAPER
Contents

- Introduction
- Problems & Solutions
- Charity
- Roadmap
- Token Distribution
- Risk Warning
We have built this platform for the community who are interested in cryptocurrency, which we all know would rule the world very soon and is a perfect start of a transition from traditional way of investment to trending mode of investment. This cryptocurrency platform is built with the motive of recognizing people in need and helping them improve their quality of life.
LIFEBIRD is the first ever Crypto Community to trade Cryptocurrencies for enhancing financial sustainability, which would end the monetary struggles. We invite and encourage you to be a part of our community to deal with the real life struggles effectively, ensuring a shared value of transparency, fee less transactions, social and economic inclusion with environmental sustainability.
Problems & Solutions

Problems

Existing economic system adds favors only to the wealthy. Whereas, the unique structure of cryptocurrency offers maximum benefits to the crypto investors. This lifetime financial resource is denied for those who do not make use of cryptocurrencies.
LIFEBIRD aims for a huge charity revolution through this ideal economic system. This goal is well accomplished by building an active reward system that benefits both the Token Holders and People in Need as well.

The highlighting aspect is that the LIFEBIRD Investors will be able to help the needy without having to forego capital growth.
Any extraordinary growth of yours is marked by what other things had grown along with you.

Hence, think, react, reflect and help other people to grow along with your growth.

As our mission is to help the people in need, we ensure the togetherness of our investors and the individuals.
Investors can harvest money by just holding LIFEBIRD tokens in their wallet.

2% of every transaction is redirected towards the charity wallet. The funds of the charity are made instantly available for the people in need.

Our supreme goal is to ensure empathizing with the struggles of people and families of ordinary financial background who are never responsible for their financial burden.

TOKEN DISTRIBUTION

- Token Name / Symbol: LIFEBIRD / LIFEBIRD
- Contract: 0x72f05a7d3884570a50cD6a491f3629370304fA18
- Total Supply: 1,000,000,000,000,000
- Decimals: 9
- Token Type: BSC / BEP-20
- Holder rewards: 5%
- Charity: 2%
- Liquidity: 3%
- Burn: 2%
TOKENOMICS

HOLDER REWARDS: Our community receives more Lifebird Tokens from the fees generated on each and every successful transaction. 5% of each transaction is redistributed to the token holders. This implies that the amount of Token grows in your wallet automatically. In addition, we will carry out Airdrops to all existing holders at irregular intervals.

CHARITY WALLET: Our Charity Wallet is designed for the purpose of serving as a support system to our Charity partners. Every 2% of each successful transaction is heartily contributed to the Charity wallet.

LIQUIDITY: 3% of each transaction would be used for generating additional liquidity on PancakeSwap in an automated way. It helps in creating and standardizing price stability, and all $LIFEBIRD Token holders will be assured of a long term benefit.
BURN: This decreases the supply of the token in circulation and is a deflationary mechanism to increase the token prices. 2% Burn fee will be collected from all transactions as a percentage of the token amount and will be sent to the burn address. 2% additional monthly burns will be processed by the team manually.

ANTI-WHALE MECHANICS: Maximum a wallet can hold is 10% of the total supply. Sells that are larger than 1% of the total supply will be rejected. This mechanism prevents the occurrence of massive ‘one time sell orders’.

MARKETING: We have generated a marketing wallet of 6% of the supply, to ensure on covering marketing expenses for the upcoming months.
Feel free to reach out to us if you have any questions.

RISK WARNING

There are risk in the development, maintenance, and operation of LIFEBIRD TOKEN (LBT), many of which are beyond the control of the development team. In addition to the other content described in this white paper, participants are requested to fully understand and agree to accept the following risks.
Market Risk

If the overall market is down or there are other uncontrollable factors, it may cause LBT itself to have good prospects, but the price is still underestimated for a long time. Regulatory risk Since the development of the project is still in its early stage, there are no relevant regulatory documents related to the prerequisites, transaction requirements, information disclosure requirements, and lock-in requirements in the fundraising process. Moreover, it is still unclear how the current policy will be implemented. These factors may have an uncertain impact on the investment and liquidity of the project. Blockchain technology has become the main target of regulation in major countries in the world. If the regulatory bodies intervenes or exert influence, LBT may be affected by it.
Competitive Risk

At present, there are many projects in the blockchain field and the competition is fierce. There is strong market competition and project operation pressure. And with the development of information technology and mobile Internet, other application platforms are emerging and expanding, LBT will face continuous operating pressure and certain market competition risks.
There are risk in the development, maintenance, and operation of LBT, many of which are beyond the control of the development team. In addition to the other content described in this white paper, participants are requested to fully understand and agree to accept the following risks.
Risk of Hacking or Theft

Hackers or other organizations or countries have the possibility to interrupt LBT applications or functions in any way, including but not limited to denial-of-SERV. Market risk Cryptography-based digital gold coins are a brand-new technology. In addition to the risks mentioned in this white paper, there are also risks that the founding team has not mentioned or anticipated. In addition, other risks may also appear suddenly or in a combination of multiple risks already mentioned.
THANK YOU!

LIFEBIRD TOKEN TEAM
